

申请 Github 学生认证

Github 学生认证

注: 如果你实在无法获取 Github 学生认证, 可以仅在 JetBrains 官网申请 JetBrains 教育许可证, 然后安装 PyCharm. JetBrains 的审核会比 Github 宽松而且更快.

我们参考这篇[博客](#).

准备

理论上, 准备材料在申请页面里写的很详细:

Before you begin:

- Check that you are using a [supported browser](#), and that location services are not blocked by your browser or platform.
- Complete your GitHub account [billing information](#) with your full legal name as it appears on your academic affiliation documentation. (You do not have to add a payment method.)
- [Verify](#) your academic email address on your GitHub account, if your school provides one.
- Secure your GitHub account with [two-factor authentication](#). (We recommend using the [GitHub Mobile](#) app.)
- [Personalize](#) your public GitHub Profile with your photo, your name, your pronouns, and more.
- Generate a README for your public GitHub Profile, [customize it with your interests](#), and publish it for the world to see.

- 支持的浏览器: Edge 或 Chrome 浏览器
- 教育邮箱 (.edu.cn 后缀, 西财的学生邮箱)
- 学信网在线学籍在线验证报告 (进入[学信网学信档案](#)获取 PDF, 再转为 PNG 格式备用)
- Github 帐号
- 人在学校或者是手机定位在学校(关闭代理)

2FA 验证

通过 2FA 双重身份验证: GitHub 要求所有在 GitHub.com 上贡献代码的用户启用一种或多种形式的双因素身份验证, 如果你没有通过 2FA 验证, 很有可能会被 Github 认为是不可靠的账户.

我们推荐你使用 TOTP 应用来完成 2FA 验证: 在手机上安装 Authenticator 应用(应用商城或者网上搜索), 在 [安全](#)页面下找到 Two-Factor methods

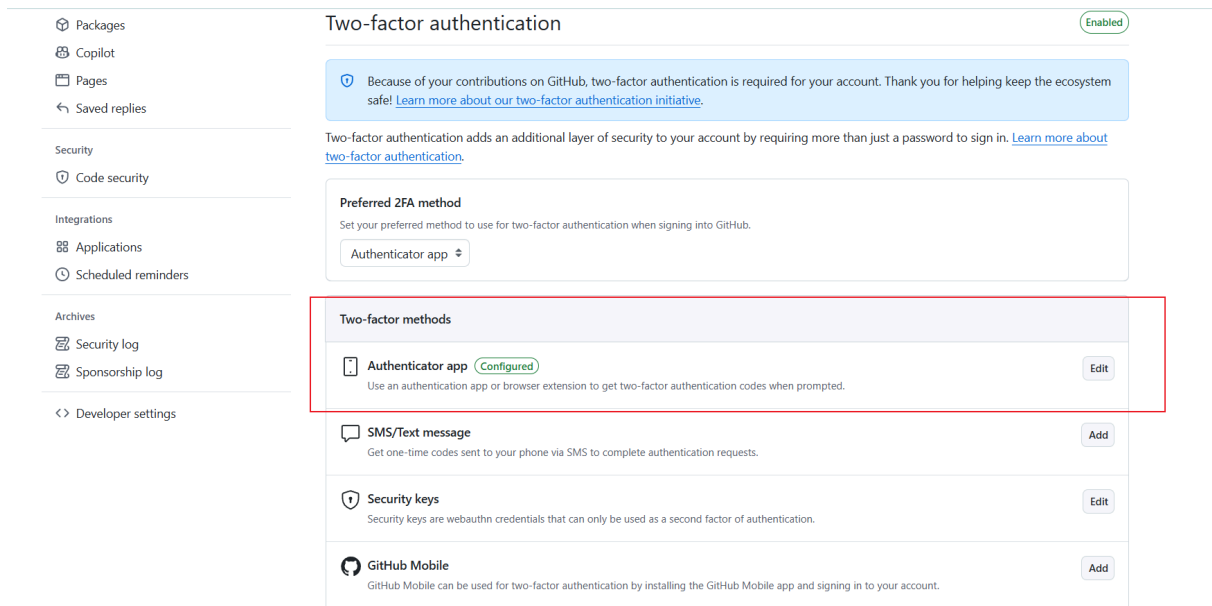

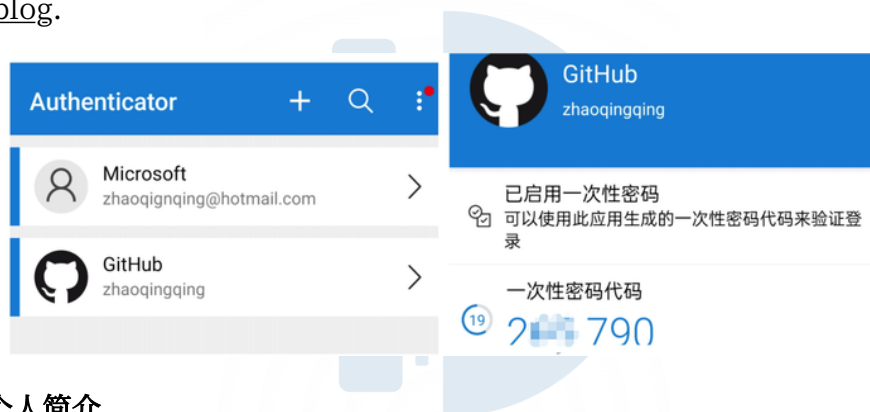

Figure 2: 我这里配置好了所以有 configured 字样

之后按照指示来添加 Github 账户(需要你扫码)到手机 Authenticator 应用中. 详细步骤你可以参考这篇 [blog](#).

配置好你的个人简介

在 [Github Profile](#) 查看你的个人简介.

如果你的简介为空, 我们推荐你在主页编辑一下 README.md. 你可以尝试下 [Github Profinator](#).

申请

进入 [Github 邮箱设置](#), 添加自己的教育邮箱为候选邮箱(主邮箱是你注册用的).

如果出现 Unverified 的字样, 尝试重发邮件. 如果出现错误, 检查代理环境以及是否通过 2FA 验证.

进入 [Benefits application](#) 页面后, 如果你的教育邮箱绑定成功以后, 它会自动识别学校, 点击 Continue 进入

Application

Required fields are marked with an asterisk *

What is the name of your school? *

Note: If your school is not listed, then enter the full school name and continue. You will be asked to provide further information about your school on the next page. **A minimum of two characters is required to find your school.**

⚠ You have verified the email address **42211042@smail.swufe.edu.cn** on your GitHub account. That academic domain is associated with the school **Southwestern University of Finance and Economics**.

Select this school

We chose this school based on your email. If this isn't your school, please [add and verify another school-issued email address](#) in your account settings - or select another school.

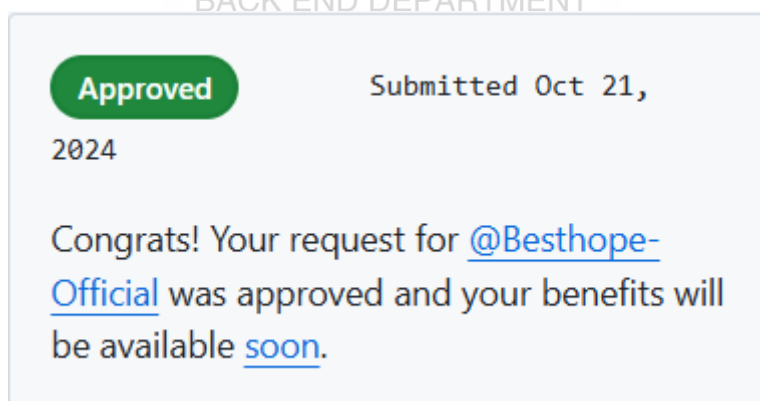

When you click "Continue" you will be prompted to share your location with us. Providing your current location helps us verify your affiliation with your chosen school.

Continue

在 Github 获取你的位置信息时, 记得人在学校, 同时关闭代理.

之后你需要上传你准备好的学信网在线验证的图, 推荐采用 AI 翻译工具将其转换成英文版本, 同时将图像重命名为 `student_id_card.png` 这样的文件, 然后再提交.

如果成功以后, 在 Benefits application 页面的右边就会显示你成功的申请.

等待一会儿时间, 你就可以拥有 Student Developer Pack. 在 3 天内能够搞定. 详情见这篇 [discussion](#).
